

At ECE, LinkedIn Learning is one of the ways we support ongoing employee development in a practical, real-world way. Employees use it to build skills for their current roles, prepare for future opportunities, or grow skills to use outside of the workplace. We also integrate LinkedIn Learning into internal programs, where participants complete pre-work through LinkedIn Learning before attending facilitated sessions. This allows more time for hands-on practice and helps turn learning into real, on-the-job impact.

- Keri Ferrell, HR Generalist, East Central Energy

Overview

No time to attend an in-person career development training? Turn to this online resource.

With more than 13,000 educational courses from Excel to customer service, co-op employees can learn just about anything.

- LinkedIn Learning teaches the latest software, creative and business skills through high-quality, online instructional learning resources.
- Choose to watch entire courses or a single tutorial video, share course playlists, bookmark courses you'd like to watch or use exercise files to follow along with the instruction.
- Additional licenses are available at a discounted rate of \$55 per employee.
- Access the LinkedIn Learning library 24/7 from any device, including a mobile app for offline learning on the go.
